

We need some help at the White Seabass Pens in Channel Islands Harbor 4/20/24!

The fish are doing great and are about 9 inches long. This year we are going to try to keep them longer to release them as big as reasonably possible to promote survivability in the wild.

Because of this we will have to change out the containment nets as the ones they are in now are getting fouled. This will take several of us to accomplish. We will meet at the Pens on Saturday 4/20/24 at 10am. Please come and help if you can. Many hands make for lighter work!

Please wear old work clothes and deck boots or old shoes. Gloves would be helpful as well.
